

## **AWWA Award Entry Form: Annual Missouri Section AWWA Sustainability Award**

The “Annual MO Section AWWA Sustainability Award,” is an environmental award that recognizes Missouri projects that promote the sustainability of our most precious resource, clean water.

Preference is given towards projects that promote sustainable environmental benefits for water related projects. Qualifying projects may be related to source protection for surface water or ground water, reduction/elimination of pollutant discharges, waste management reduction, green infrastructure solutions, efficiency improvements, LEED projects, or water treatment improvements that equate to long term water quality sustainability. In general, projects that improve the environment and benefit public health may qualify. Preference is given to projects that demonstrate sustainability related to potable water. Wastewater, stormwater, recycling, reuse, and air quality improvement projects are all eligible depending on the impact the project has towards protecting and improving our water resources. Consideration given to triple bottom line impact.

Must have an AWWA membership for your project to qualify.

Please include any photos or other documentation to support evaluation of the project.
